## Mission and Vision Statements

### Mission Statement

My mission is to encourage, inspire, and equip my students in the classroom to help them become the best versions of themselves.

### Vision Statement

I wake up with my loving husband and to the sound of my animals outside. I live on a large piece of land out in Tennessee with the love of my life. We live in a ranch house. I have joy because I am excited to see my students at school. I go downstairs to make myself a vanilla iced latte and am grateful for where my life is at. I then make myself some breakfast. I make some eggs and toast. After that, I go and get ready for the day. I go into my closet and pick out a dress. I put on a maxi blue dress with white sandals. After that I grab my lunch for school and my purse and head off to my school. The car I drive is a black Tahoe and on my way to school, I see a lot of greenery and farmland. My drive to school is about thirty-five minutes long. When arriving at my school I walk into my classroom. I get to school early to prepare for the day. I am a kindergarten teacher so I have a lot of prepping to do before they arrive. I love my students and I can't wait for the day to start. The day goes by really fast. I taught them the letter C today and we did some art as well. The kids behaved well today. The school day went well. After school, I go home and change. I head over to the gym. At the gym, I ran on the treadmill. After that, I went home and my husband made dinner for me. After dinner, I watched a show and got ready for bed. I took a shower and then afterward I went to sleep. I had a great day.

My day was dedicated to inspiring, fostering a love of learning, and nurturing the potential of every student through engaging and thoughtful instruction.
